[Description](#) [Reviews \(0\)](#) [Discussions \(0\)](#) [Live Preview](#)

Industrio is a modern [free industrial website template](#). It's built using all the latest technologies like [Bootstrap 5](#), [HTML5](#) & [CSS3](#). The template has a well-thought design with responsive amenities like a responsive hero header, header carousel, call-to-action buttons, fun fact counters, pop-up video player, testimonial carousels, a detailed footer, newsletter subscription form UI and other UI components to make the user journey easier. You can use this template for your next industrial website project.

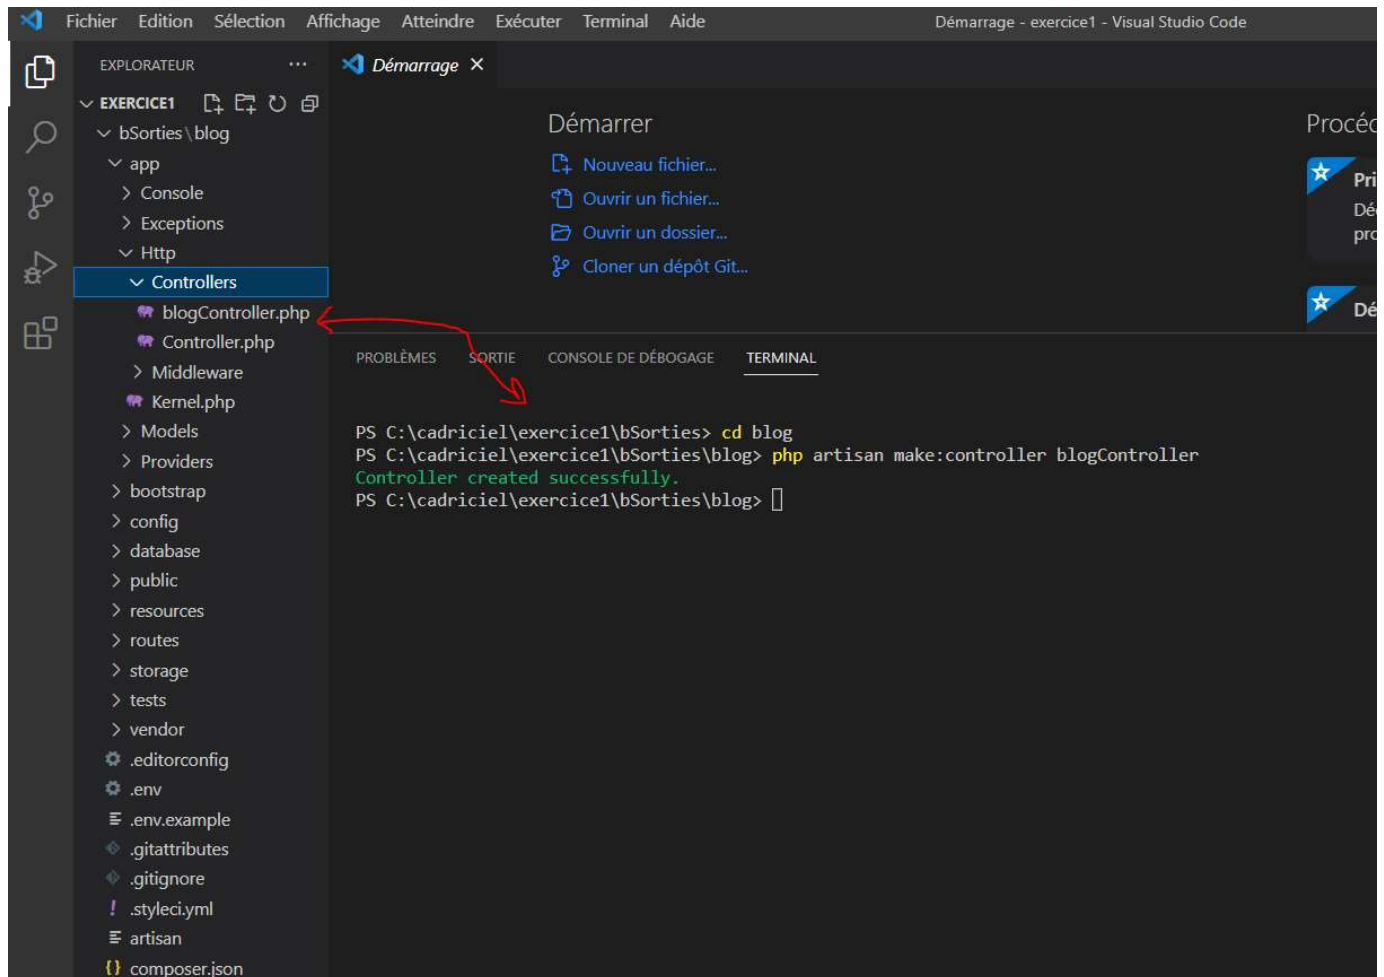

[Editor's Pick](#) [View All >](#)

## C. Ouvrir le projet sur localhost

Commende : **php artisan serve**

## D. Création le contrôleur en utilisant la ligne de commande

Commende : **php artisan make:controller blogController**

## E. Liste des Routeurs

```
> public
> resources
  routes
    api.php
    channels.php
    console.php
    web.php
  storage
  tests
  vendor
.editorconfig
.env
.env.example
.gitattributes
.gitignore
.styleci.yml
artisan
composer.json
composer.lock

11 | routes are loaded by the RouteServiceProvider within a group which
12 | contains the "web" middleware group. Now create something great!
13 |

```

## G. Les vues en utilisant Master

The screenshot shows a file explorer on the left with a list of Blade templates: 404.blade.php, about.blade.php, contact.blade.php, features.blade.php, home.blade.php, master.blade.php, projects.blade.php, services.blade.php, team.blade.php, and testimonial.blade.php. The 'master.blade.php' file is selected. On the right, a code snippet shows a navigation bar structure. A red arrow points from the 'master.blade.php' file in the explorer to the `@yield('content')` line in the code snippet.

```
89 <a href="services" class="nav-item nav-link">Services</a>
90 <a href="contact" class="nav-item nav-link">Contact</a>
91 </div>
92 <a href="" class="btn btn-primary px-3 d-none d-lg-block">Get A Quote</a>
93 </div>
94 </nav>
95 <!-- Navbar End -->
96
97 @yield('content')
98
99 <!-- Footer Start -->
100 <div class="container-fluid bg-dark footer mt-5 py-5 wow fadeIn" data-wow-de
101 <div class="container py-5">
102 <div class="row g-5">
103 <div class="col-lg-3 col-md-6">
104 <h5 class="text-white mb-4">Our Office</h5>
```

The screenshot shows the Visual Studio Code interface with the 'home.blade.php' file open. The Explorer sidebar on the left shows the project structure, including a 'resources' directory with a 'views' subdirectory. The 'home.blade.php' file is selected. The code editor shows the following Blade template structure:

```
1 @extends('master')
2 @section('title', 'Home')
3 @section('content')
4 <!-- Carousel Start -->
5 <div class="container-fluid px-0 mb-5">
6 <div id="header-carousel" class="carousel slide" data-bs-ride="carousel">
7 <div class="carousel-inner">
8 <div class="carousel-item active">
9 
10 <div class="carousel-caption">
11 <div class="container">
12 <div class="row justify-content-center">
13 <div class="col-lg-10 text-start">
14 <p class="fs-5 fw-medium text-primary text-uppercase animated slideIn
15 of Working Experience</p>
16 <h1 class="display-1 text-white mb-5 animated slideInRight">Industria
17 Providing Company</h1>
```
